I love an eclectic mix in design; old and new, modern and traditional, high vs low, rustic and sleek, soft and comfy mixed with streamlined pieces. Traditional architecture (think Paris apartment, gorgeous marble fireplace, paneled walls, and warm wood floors) all white washed is the perfect backdrop for artfully arranged sculptural modern furnishings. I adore the sharp contrast between the modern pieces of furniture and the new Bordeaux French Antique Series floor by 4 Corners with walls painted in a simple white by Beauti-tone. My favorite is Hotelware FD067-0. This collected look is so timeless and elegant!

This classic master retreat is the perfect getaway. The French Antique flooring in Avalon sets the tone for a monochromatic color scheme with calm elegance. Layers of natural textures like linen, cotton and silk give the space a nature inspired softness.
