IMC CEO
ROBERT MARICICH:

**LIGHTING IS
TOP OF MIND**

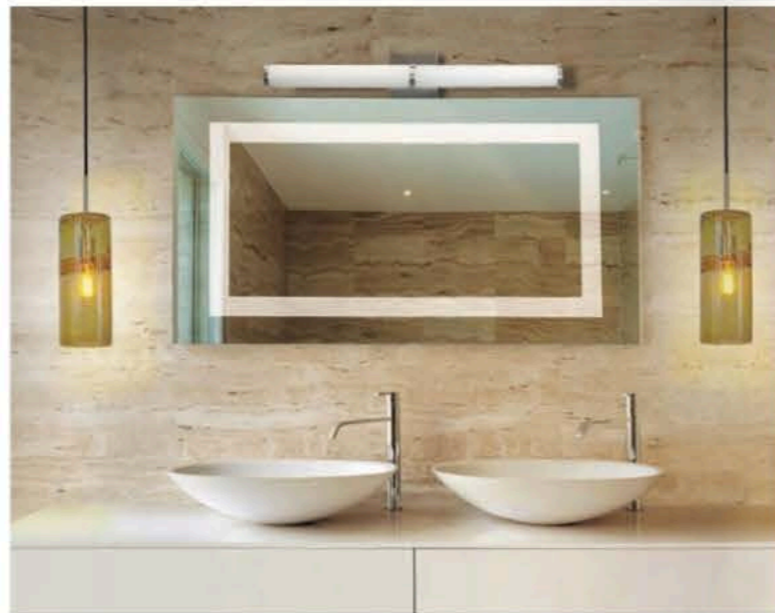

SPECIAL SECTION:
ALA CONFERENCE

GREAT REFLECTIONS

Mirrors can make a small room appear larger, add visual interest to a wall, plus serve a functional purpose. Here are some of the latest styles on the market.

HUBBARDTON FORGE

Slim in shape, the Beveled Oval Mirror complements many of the company's various lighting fixtures, but also looks just as stunning on its own. The metalwork frame is handcrafted by the artisans at the forge in Vermont.

JESCO

The company's series of Lit Mirrors can be illuminated with LEDs or T5 fluorescents and ordered in rectangular, round, and oval wall-mounted and rectangular stand-alone shapes as well as custom. A minimum quantity of 10 is needed for custom work; however, dimensions, LED color temperature, and special features such as defoggers, color-tuning, and switches can be implemented.

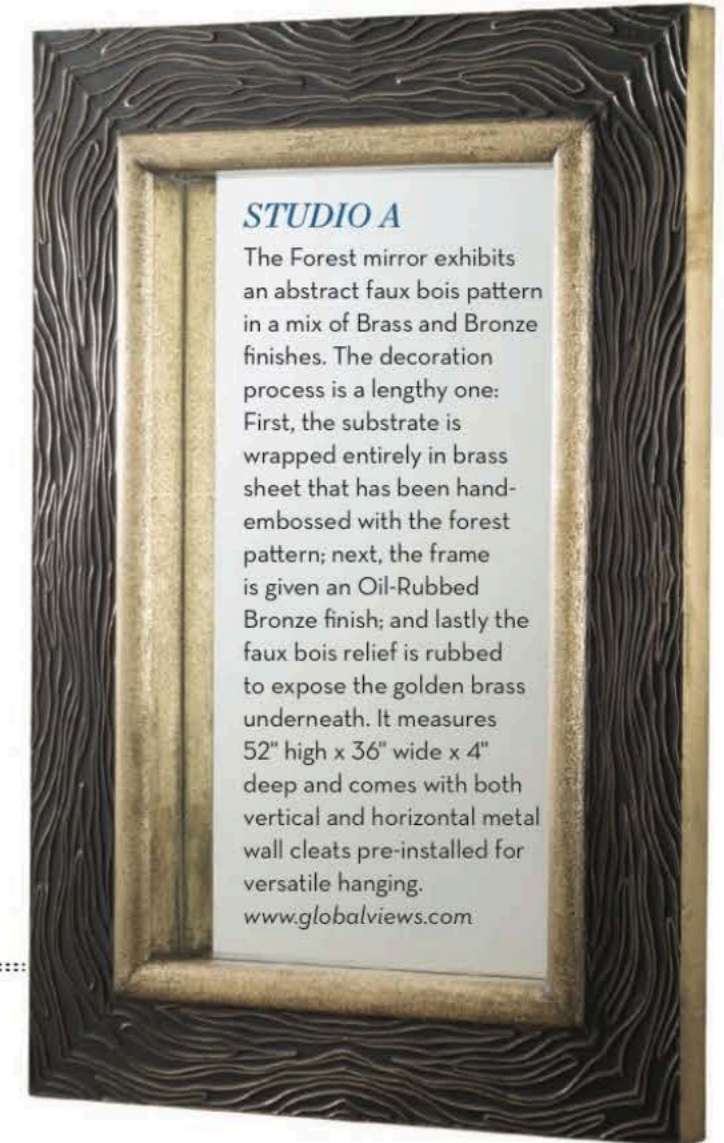

The LED models have an estimated average of 50,000 hours of life, compared to the 20,000-hour life of the T5 linear fluorescents. The LED versions also have the strip directly behind the cut-outs for optimal light output with no hotspots. With the light placement enclosed inside the mirror, cleaning is easy and the chance of damage/breakage is greatly reduced.

CAPITAL LIGHTING FIXTURE CO.

This handsome wood wall mirror is part of the company's Global Fusion series and features a mango wood frame with brass-plated metal trim. Hand-crafted and hand-finished, it can be hung vertically or horizontally to help pull together a vintage, global, or contemporary look with complementary elements.

STUDIO A

The Forest mirror exhibits an abstract faux bois pattern in a mix of Brass and Bronze finishes. The decoration process is a lengthy one: First, the substrate is wrapped entirely in brass sheet that has been hand-embossed with the forest pattern; next, the frame is given an Oil-Rubbed Bronze finish; and lastly the faux bois relief is rubbed to expose the golden brass underneath. It measures 52" high x 36" wide x 4" deep and comes with both vertical and horizontal metal wall cleats pre-installed for versatile hanging.

ARTCRAFT

This LED-illuminated standing mirror is distinguished by a unique crystal frame. A smart touch dimmer switch allows the user to select the exact amount of light desired. The legs of the mirror are height-adjustable.

SURYA

The Twickenham beveled rectangular mirror is distinguished by a hand-painted, triple-antiqued frame in a Silver finish.

Offering home décor products not only increases the probability of impulse purchases, but also provides a reason for customers to visit your showroom more often.

LITE SOURCE

The Glanis and Kenbridge table lamps subtly incorporate technology into their transitional design. In addition to illumination from the fully dimmable 9-watt LED bulb, the lamps are equipped with a handy USB charging port plus a wireless speaker for playing music.

HOWARD ELLIOTT

The abstract Pole Vaulter statue series shows off the beauty and strength of the human form and spirit. The detail of this piece is enhanced by a rich Bronze finish highlighted with gold leaf accents and set on a black base. Each measures approximately 15" high x 5.75" wide x 4" diameter.
