Go on,
wallpaper
a door!

It's a pretty simple project. We painted the door navy, then wallpapered the inset panels. Key pointers: For the cleanest cut, trim paper with a crafts knife.

Regardless of which type of wallpaper you're applying (including the peel-and-stick kind), start in a corner. If wallpaper paste is involved, pour into a paint tray and spread on the back of the paper with a roller. De-wrinkle with a wallpaper smoother.
