FRESH TAKES ON COLOR, FORMS AND FINISHES  
ENERGIZE WITH ELEGANCE

BY LAUREN BURKHEAD

Home accents exhibitors at this week's High Point Market are delivering a burst of positive energy and freshness with sophisticated designs, crisp metal mixes, happy hues and sumptuous textiles.

Leading the choir are soft tones of green, blue and blush, complemented with a background chorus of earthier jewel tones. Brass and gold are prevalent — especially in brushed and antique finishes — edging everything from upholstery to seating, and lining shades, tables and decorative accessories.

Earthy woods satisfy every form and function,

with both rustic and polished finishes revitalized by the application of edgy metal trims and unexpected elements. Bursting rays of mixed metals steal the light show and reflect otherworldly drama, while designs wrapped in fibers, cellulose and other surprises present exciting new visual delicacies.

Velvet reigns supreme, fretwork is fabulous and Art Deco is making a dramatic return in both design and dialogue.
